C:\Users\mudir\OneDrive\Do
Grammar:
S -> AaAb | BbBa
A -> epsilon
B -> epsilon
FIRST(A) = { epsilon }
FIRST(B) = { epsilon }
Finding FIRST(S):
Production 1: S -> AaAb
A produces epsilon, so move to next symbol 'a'.
Therefore, 'a' belongs to FIRST(S).
Production 2: S -> BbBa
B produces epsilon, so move to next symbol 'b'.
Therefore, 'b' belongs to FIRST(S).
FIRST(S) = { a, b }
Process exited after 0.09786 seconds with return value 0
